

Natural Gas Pipeline Heater

INNOVATIVE HEAT

CWT Natural Gas Pipeline Heater

Economical
Environmentally-Friendly
Easy to Operate

HONESTY | INTEGRITY | HARD WORK

TECVALCO
USA

Benefits of CWT Natural Gas Pipeline Heater:

- Closed system that requires no top ups,
- Elimination of costly glycol bath,
- Increased thermal efficiency over conventional technology,
- No outside utility required - system runs on internally generated multivolt power,
- Patented Heat Driven Loop (HDL) Technology,
- Quick response time to actual gas temperature,
- Reduced greenhouse gas emissions,
- Reduced heat loss,
- Runs on vacuum, resulting in a significant reduction in corrosion,
- Significantly reduced fuel consumption,
- Silent, and
- Simplified operator-friendly instrumentation

Reduced Emissions

Simple To Use Controls

Reduced Operating Costs
